

Personal, Social & Health Education (PSHE) – Whole School Map

	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
<p>Jigsaw Nursery – Year 6</p> <p>The Jigsaw scheme runs across the school. Though the same overall theme is followed each half-term, the content changes, is age appropriate, and grows in complexity. Content from one year to the next is linked and carefully sequenced. We have outlined an overview of what the children will cover in these units.</p>	<p>Being me in my world</p> <p>This unit sees the children introduced to their new Jigsaw piece. Each year group has its own piece and the children love getting a new one each year. The children begin to understand things about themselves, their families and the world in which they live.</p>	<p>Celebrating Difference</p> <p>In this unit, children look at how everyone is unique. They learn why it is important to be accepting of people regardless of their gender.</p>	<p>Dreams and Goals</p> <p>In this unit, children learn the skills needed in order to set achievable goals for themselves. The youngest children are assisted in thinking of a goal whereas our older children are set the target of writing three goals and are set the challenge of thinking about the steps needed to achieve these goals.</p>	<p>Healthy Me</p> <p>This unit covers aspect of both physical and mental health. The children learn how to keep themselves both physically and mentally healthy and learn about the effects of drugs, alcohol and smoking on the human body.</p>	<p>Relationships</p> <p>In this unit children will learn to understand that there are different types of families and that not all families are the same. They will know how it feels to belong to a family. They will be able to name people that they can trust and will be able to identify ways to get help should they need it.</p>	<p>Changing Me</p> <p>This is the final puzzle of the year and allows the children to think about the physical changes they will go through as they get older and learn new things.</p>
<p>Here we have indicated some of the enhancement activities which children across school can take part in.</p>	<p>All children are invited to run for the school council elections.</p> <p>All KS2 children are offered the opportunity to apply for the role of a playground buddy.</p>	<p>During this half term, all children take part in activities linked to anti-bullying week.</p> <p>At Christmas, our 'Bauble' activity has a range of valuable PSHE goals.</p>	<p>During this half term, assemblies are held to allow the children to share the goals which they have set for themselves (linked to New Year Resolutions).</p>	<p>This unit of work is revisited and built upon during health week which allows teachers to assess which information the children can recall.</p>	<p>Over the year the children are given opportunities to build relationships with different adults in school through class swaps and discussion about learning across all subject areas. Children know many adults in school including from external agencies such as IMPACT</p>	<p>All children take part in transition activities including visits to secondary school for our Year 6 children.</p>
