

Art in Action: Year 2

Year 2 have been studying the artist Dennis Creffield who has many famous drawings of cathedrals. Taking inspiration from this the children explored the local area and took photos of interesting features of the urban landscape. They used their ipads to capture different angles of the local gas holders and then have used these photos later in the classroom. The children then used their sketching pencils to recreate their own versions of the gas holders look at the techniques that Creffield used.
