

Harry Watts - Local Hero!

Year 2 Local History - Harry Watts

The children in Year 2 have been learning all about the Sunderland hero Harry Watts. Harry Watts is famous for rescuing people at sea when he was a sailor and for saving people as part of Lifeboat and Life Brigade services. In their history lessons the children learned all about Harry's early life, his life at sea, when he was a diver and his later life. The children looked at and discussed pictures of Harry and looked at photos and images of Hendon at the time Harry was alive. The children also carried out some research of their own. The children created chronological reports in the form of a booklet about his life. Harry is known as a 'forgotten hero' and it was important to the children that they share his life story with others. The children are very proud of the booklets they produced.
