

Year 5 – Kwik Cricket

Year 5 started their Kwik Cricket unit by practising the skills needed to throw and catch the ball accurately. This then led into the children learning how to use the correct bowling technique. The children then looked at the skills needed when fielding and applying tactics to outwit opponents. Finally, the children spent time learning how to hit the ball with purpose, varying the speed, height and direction.

Your stance and grip are very important when batting.

The children in Year 5 were given the opportunity to apply their skills at a Kwik Cricket competition hosted at a local primary school. The children were put into teams and they were given the chance to bat and field in multiple games against other Year 5 pupils from primary schools within the area. All of the teams won at least one of their games and one team made it into the finals and won the competition overall. It was a fantastic chance for the children to apply their skills in a competitive environment.
